California's sunny skies will claim a year as Palm Beach ever had in its palmtest days, and every day I hear of more persons who have planned to spend six weeks in a tour of the Pacific Coast with long stops at some of the favorite places-Pasadena, Monterey, Coronado Beach and Los Angeles.

Not in many a social season has the town turned itself over to making things y easant for one young girl visitor as it has been doing for Miss Florence Kelley, the last month. Indeed, I cannot think, fust now, of any out-of-town girl who has received half the adulation and the attention which have been showered on the granddaughter of Mrs. J. L. D. Morrison, and I may eafely add, also, that no other by it all than this charming and vivacious New York debutante.

Of course, it was to be expected that Mrs. Morrison's relative might come in for a large share of pleasant attentions. but when luncheons, dinners, theater parties and dances, with a tea or two sandwiched in between, becomes the dally so cial programme of Miss Kelley, and each and every one revolves around her as the specially honored guest, then we feel sure that the young girl stands on her own social merit, and that the smart set likes her for herself as well as for her distinguished relatives.

Miss Kelley. I may add, is as little like an Elistern girl as one can imagine. She as a cordial manner entirely removed from either the New England conventionality and stiffness or the too evident San Francisco breeziness. She strikes a most happy mean, and she has "taken" tremendously in St. Louis because of a genuinely magnetic and interesting personality. She is bright, too, as bright as the proverbial button, and knows how to entertain girls and men with equal skill.

Miss Kelley has been more than busy the last week, and, despite the fact that any people are gone and going out of town and that most of the balls and large affairs are over, is constantly beseiged with entertaining, and those who desire entertain for her. As a fair sample of one of her "busy days," the coming Tuesday may be taken. In the morning. should the day chance to be warm and bright enough, she will go for a ride with a party of young people, all of whom enjoy their brisk canter shortly after breakfast. A luncheon at 2 o'clock will be given for her by Miss Julia Reynolds, and will include a dozen young girls, mostly debutantes, who have come to regard Miss Kelley as quite one of them since the very

As the Morning Choral members cast their respective eyes round the very large, very enthusiastic, and equally fashionable audience, nearly all women and nearly every woman in her best bib and tucker, the other morning, great gratification and a whole lot of other things along the same line, stole o'er the spirit of their dreams.

For a dream had become realized-that the Morning Choral had risen from the position of a zealous singing society of women, dignified enough, but scarcely important, to a great big organization that includes on its active and associate lists the most prominent people of St. Louis, musically and socially. Hard work and plenty of it brought about the giorious result this year, that the associate membership list is just about full, in so far as the seating capacity of the Od where all big concerts are held. With it comes also the delightful gratification that admittance to the club becomes more desirable as it becomes more difficult. The Morning Choral has arrived, and arrived to stay.

The Hosmer Hall seniors gave a luncheon last Saturiay to the juniors that proved to be a very joily episade in school life of this year. The luncheon was given at the Buckingham Club, and the girls had the spacious and handsome banquet room for their feast and merrymaking. Green and white, colors of Hosmer Hall, trimmed the room, and luncheon was served at small tables, each seating four and each being decorated with the same colors, with tiny fairy lamps interspersed. Miss Mathews, principal, and Miss Louise McNair chaperoned.

The place cards were prettily devised conceits, with girls in caps and gowns hand painted thereon. Music followed the luncheon, several young singers and planists in the two classes contributing.
